

Cross Cutting Rule

B GD 503 Cross Cutting Rule is used to test the adhesion of film with substrate (the thickness of dry film less than 250 μ m) . It conforms to ISO 2409: (2013) and BS 3962-6 Standard.

Main Technical Parameters:

- ★ Cutting Distance: 1mm、1.5mm、2mm、3mm
- ★ Cutting Length: 35mm
- ★ Cutting Number: 11 teeth for each
- ★ Single-blade Cutter: With V shape cutting edge (15° ~30°) ,
blade thickness 0.43mm $\pm$ 0.03mm
- ★ **Ordering Information:** BGD 503--- Cross Cutting Rule
BGD 503/W-001---Cutter Blade (pack of 10)
